T3 - The Allrounder

The BYD T3 is a pure electric logistics vehicle with low energy consumption and high performance. Its pure electric drive, powerful electric motor and automatic shift, make it easy to operate and maintain.

Powered by BYD's powerful blade battery with a capacity of 45.0 kWh, this silent-running vehicle produces zero emissions and features 300km driving range on a single charge. The 50kW DC charger allows charging from 0-100% SOC near 1.3 hour. The 6.6kW AC charger allows flexible ways to plug with different charging facilities. With a 3.8m³ cargo space and 0.7 ton payload, the BYD T3 meets the transportation needs of most urban logistics systems.
